VAIBHAVI MISTRI

Full-Stack MERN Developer

+91 9924437222 | vaibhavimistri11@gmail.com | LinkedIn | GitHub | Portfolio | Ahmedabad, India

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with hands-on expertise in React, Node.js, MongoDB, and third-party API integrations. Demonstrated ability to architect and ship production-grade applications — from real-time developer networking platforms to AI-powered streaming apps and international freelance projects. Combines strong frontend and backend fundamentals with a pragmatic approach to clean code, scalable system design, and impactful digital experiences. Actively seeking a challenging MERN Stack role where I can contribute from day one.

TECHNICAL SKILLS

Frontend	React, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, REST APIs, JWT Authentication, Socket.io, Google OAuth 2.0
Database	MongoDB, Mongoose, MySQL, Firebase
APIs & Tools	Razorpay, TMDB API, Gemini AI, Git, GitHub, Postman, Vite
Concepts	MERN Stack, MVC Architecture, Real-time Systems, Responsive Design, Authentication

WORK EXPERIENCE

Technical Support Engineer
WPG Consulting Pvt. Ltd. · Ahmedabad

Aug 2024 – Feb 2025

- Diagnosed and resolved complex client-side and system-level technical issues, reducing average resolution time through structured troubleshooting methodologies.
- Collaborated cross-functionally with engineering teams to escalate, reproduce, and resolve high-priority software defects, improving product stability.
- Developed a thorough understanding of enterprise software architecture and customer workflows, bridging the gap between technical teams and end-users.

Full-Stack Developer Intern
WPG Technologies Pvt. Ltd. · Ahmedabad

2024

- Engineered a full-stack Employee Management System from the ground up, incorporating shift tracking, break monitoring, and automated task scheduling — reducing manual workforce management effort by an estimated 40%.
- Architected and implemented Google OAuth 2.0 authentication, eliminating password-based vulnerabilities and streamlining employee onboarding.
- Delivered a production-ready application using Node.js, HTML, and CSS, collaborating directly with stakeholders to iterate on features.

PROJECTS

devTinder — *Developer Networking Platform* 2025

- Architected a real-time developer networking platform supporting profile browsing, connection requests, and user management — analogous to a LinkedIn/Tinder hybrid for developers.
- Engineered secure authentication using JWT tokens and HTTP-only cookies with CORS configuration, protecting all API routes.

- Implemented real-time 1:1 chat using Socket.io, enabling live bidirectional communication between connected developers.
- Designed and built a scalable REST API with MongoDB and Express, handling profile updates and connection workflows efficiently.

Tech: *React · Node.js · MongoDB · Express.js · Socket.io · JWT · Redux Toolkit*

NetflixGPT — *AI-Powered Movie Streaming Clone* 2025

- Developed a Netflix-like streaming application with full signup/signin authentication and a polished, responsive UI.
- Integrated the TMDB API to serve dynamic, real-time movie listings across multiple categories and genres.
- Implemented Google Gemini AI to deliver personalised genre-based movie recommendations, enhancing user discovery experience.
- Leveraged Redux Toolkit with Firebase for robust state management across user sessions, auth flows, and large-scale movie data.

Live: netflix-gpt-lyart-ten.vercel.app

Tech: *React · Redux Toolkit · Firebase · Google Gemini AI · TMDB API*

Swiggy Clone — *Full-Stack Food Ordering Web App* 2025

- Built a Swiggy-like food ordering platform consuming live Swiggy APIs for real-time restaurant listings, menu browsing, and category filtering.
- Implemented Add to Cart, View Cart, and a fully integrated Razorpay payment gateway, enabling end-to-end checkout flow.
- Managed complex application state (cart, menu, order status) using Redux Toolkit with Firebase for persistence and real-time sync.

Tech: *React · Redux Toolkit · Firebase · Razorpay · Swiggy Public API*

Stretch & Smile — *Freelance Client Project — Ottawa, Canada* 2024

- Designed and delivered a production website for an international client — an Ottawa-based in-home physiotherapy clinic serving real patients in Canada.
- Engineered a fully responsive, accessibility-focused static site with modern design, optimised load times.
- Collaborated remotely with the client through the full project lifecycle: requirements gathering, design iteration, development, and deployment.

Live: stretchandsmile.ca

(Private codebase — client project)

Tech: *HTML5 · CSS3 · JavaScript · Responsive Design*

EDUCATION

Bachelor of Computer Science
Pandit Deendayal Energy University, Gandhinagar, Gujarat
2021 – 2024
CPI: 8.94 / 10

Diploma in Computer Engineering
V.P.M.P. Polytechnic (GTU), Gandhinagar, Gujarat
2018 – 2021
CPI: 9.96 / 10

COURSES & CERTIFICATIONS

Namaste React
React Hooks · Redux Toolkit · React Router · Lifecycle · Performance Optimisation

Namaste Node
Node.js · Express.js · REST APIs · MongoDB · Scaling · Authentication
